

EAR-Based Amendments  
Team Assignments

The assignment for each EAR-based amendment includes a lead planner and a primary support planner. As each member of the entire team may be working on a data package or other information to be used by all, other team members may be asked to provide specific information to the lead planner. The lead planner is the primary contact and is responsible for the amendment document, scheduling, contact with PPC staff, contact with city/town staff, and other coordination efforts.
